

Buy Dentacoin (DCN) with Bitcoin (BTC) on www.cryptopia.co.nz

1. Go to <https://www.cryptopia.co.nz/> and click on the "REGISTER" button (if you don't have an account yet).

2. Fill in all the fields, then verify your account through the email you have used for the registration. After this simple verification procedure, you can start using Cryptopia.
3. The next step is to deposit the desired amount of BTC to your account so that you can buy DCN with it. Just go to <https://www.cryptopia.co.nz/Deposit>, choose the currency you want to deposit (BTC) and click on the "Next" button in order to generate a new address to which you can deposit BTC from the platform/wallet where you store it.

4. Now you should see your Deposit address. Just copy it and use it as a recipient address to transfer BTC from the platform/wallet where you store it. You don't have Bitcoin (BTC)? You can buy it against FIAT currency on platforms like: [Bitpanda](#), [Coinbase](#), [Kraken](#), [Poloniex](#), [Bittrex](#), [Zebpay](#) (India).

5. After you've sent the amount of BTC to your Cryptopia address, you can verify the transaction on the "Deposit History" page: <https://www.cryptopia.co.nz/DepositHistory>
ATTN: Please be aware that it can take some time for your deposit to be processed and shown on the page.
6. Now it's time to proceed to buying Dentacoin. Go to https://www.cryptopia.co.nz/Exchange/?market=DCN_BTC . You will see a section named "Buy DCN".

9. Well, that's just it. Welcome on board! Now you can check you DCN balance on the "Balances" page: <https://www.cryptopia.co.nz/Balances>

Security recommendation!

Technically, you could store your DCN on exchange platforms like Cryptopia. But we do not recommend this. Storing any value on an exchange in the long term means that you don't have control over your private key but the exchange does.

For storing Dentacoin we recommend you to use an Ethereum wallet to which you have full access, i.e. you hold your private key (e.g. MyEtherWallet, MetaMask, imToken). For a next level of security, you can consider a hardware wallet such as TREZOR or Ledger Nano S.
