

HOW TO BUY DENTACOIN (DCN) VIA MYETHERWALLET

ATTN: Don't try to buy Dentacoin (DCN) by sending Ether (ETH) to our contract from any exchange platform as your assets could be lost. Instead, follow the instructions below.

1. Go to <https://www.myetherwallet.com/#send-transaction> and access your Ether wallet in the desired way. **ATTN:** If you don't have a wallet or you have a wallet but you are not sure how to access it, please [follow these instructions](#).

2. Make sure you have added Dentacoin as a Custom Token in your wallet, so you can check the amount of Dentacoins you own afterwards. This is done as follows:

2.1. Below the Account Balance section on the right side of the page, you will see the Token Balances section. Click the "Add Custom Token" button.

2.2. In the fields Address, Token Symbol, Decimals, enter the following:

Token address: 0x08d32b0da63e2C3bcF8019c9c5d849d7a9d791e6

Token symbol: DCN

Decimals: 0

2.3. Click the Save button. And you're done.

3. Ready to buy DCN? In the section Send Ether & Token fill in the following:

3.1. To Address: 0x08d32b0da63e2C3bcF8019c9c5d849d7a9d791e6

3.2. Amount to Send – the ETH amount you would like to exchange for DCN. **ATTN:** In order to buy Dentacoin, you should have a certain amount of Ether (ETH) in advance. You don't

have Ether (ETH)? You can buy it on platforms

like: [Bitpanda](#), [Coinbase](#), [Kraken](#), [Poloniex](#), [Bittrex](#), [Ether Rush](#) (India) and then just transfer it to your wallet.

3.3. Gas Limit will be automatically generated – change it to 200 000 so that your transaction goes through.

3.4. Then click on “Generate Transaction” and confirm it.

The screenshot shows the MyEtherWallet interface for sending a transaction. The 'To Address' field contains the address `0x7c857B5A97eAbe94205C07890BE4c1aD31E486A8`. The 'Amount to Send' field is empty, with a 'Send Entire Balance' link below it. The 'Gas Limit' is set to 21000. The 'Generate Transaction' button is highlighted with a red box and an arrow. The right sidebar displays the account's address (0x06), balance (4.174 ETH), and token balances (6,883 DCN).

4. After the transaction has been processed, you must see your Dentacoins in the Token Balances section.

This screenshot shows the same interface after the transaction. The 'Token Balances' section is now highlighted with a red box, showing a balance of 6,883 DCN. The 'Generate Transaction' button remains at the bottom of the form.

Welcome to the Dentacoin Holders Club!
