

Buy Dentacoin (DCN) with Indian Rupees (INR) on www.buyucoin.com

1. Go to <https://www.buyucoin.com/> and click on "Signup" (if you don't have an account yet).

2. Fill in all the fields, then verify your account through the email you have used for the registration. When logging in for the first time, you will be asked to enter your mobile number and verify it for extra security.
3. Go to your Account and simply upload your Pan Card, Aadhar Card & Bank Account details on the KYC page after sign-up.

4. It usually takes less than 1 working day to get you verified. Once you are verified, it's time to deposit the desired amount of INR to your BuyUcoin account. For this purpose you can use IMPS, NEFT or RTGS and deposit the amount of INR to the company's account number. Don't forget to enter the reference ID when making the transfer.
5. After you've received the amount of INR, you can proceed to purchasing Dentacoin (DCN) at the fixed ICO rate. You will find Dentacoin on the ICO Corner page:

<https://www.buyucoin.com/ico-corner> Please follow the instructions in order to participate in the ICO. Select the amount of DCN you wish to buy, and confirm your purchase.

6. Well, that's just it. Welcome on board! Now you can check you DCN balance on the Wallet page.

Security recommendation!

Technically, you could store your DCN on exchange platforms like BuyUcoin. But we do not recommend this. Storing any value on an exchange in the long term means that you don't have control over your private key but the exchange does.

For storing Dentacoin we recommend you to use an Ethereum wallet to which you have full access, i.e. you hold your private key (e.g. MyEtherWallet, MetaMask, imToken). For a next level of security, you can consider a hardware wallet such as TREZOR or Ledger Nano S.
