# Buy Dentacoin (DCN) with Bitcoin (BTC) on www.coinexchange.io

1. Go to https://www.coinexchange.io/ and click on the "REGISTER NOW" button.

2. Fill in all the fields, then verify your account through the email you have used for the registration. After this simple verification procedure, you can start using CoinExchange.

3. The next step is to deposit the desired amount of BTC to your account so that you can buy DCN with it. Just go to https://www.coinexchange.io/deposit/BTC and generate a new address to which you can deposit BTC from the platform/wallet where you store it.

4. Now you should see your Deposit address. Just copy it and use it as a recipient address to transfer BTC from the platform/wallet where you store it. You don't have Bitcoin (BTC)? You can buy it against FIAT currency on platforms like: Bitpanda, Coinbase, Kraken, Poloniex, Bittrex, Zebpay (India).

7. Add the fixed Dentacoin ICO price in the corresponding "Price" field:
   0.00000003 BTC/DCN. If you want to buy DCN with the entire BTC amount you have on CoinExchange, just click on "available balance" in the upper right corner of the section and the corresponding fields will be automatically filled out. If you want to buy DCN with a fraction of your BTC balance, just type in the amount of DCN you would like to buy in the field "Amount" and don't forget to also fill out the same fixed ICO price.

8. Click on the "Submit Buy Order" button and confirm the transaction.

9. Well, that's just it. Welcome on board! Now you can check you DCN balance on the "Balances" page: https://www.coinexchange.io/balances

Security recommendation!

Technically, you could store your DCN on exchange platforms like CoinExchange. But we do not recommend this. Storing any value on an exchange in the long term means that you don't have control over your private key but the exchange does.

For storing Dentacoin we recommend you to use an Ethereum wallet to which you have full access, i.e. you hold your private key (e.g. MyEtherWallet, MetaMask, imToken). For a next level of security, you can consider a hardware wallet such as TREZOR or Ledger Nano S.
